Tempstar® SmartComfort™ TX 5500 Heat Pump

The Environmentally Friendly Choice

Tempstar® professionals take pride in bringing you the latest technology in home comfort, with the goal of surpassing your expectations in energy efficiency and dependability. From engineering and design to industry-leading warranties, we are dedicated to always delivering quality you can feel.

R410A is an EPA-approved, environmentally sound refrigerant.

Your Home Deserves The Best

The Tempstar® SmartComfort™ TX 5500 Heat Pump is the kind of top-notch performer that will keep your home comfortable—and quiet—for many years to come. The quality shows in every detail—such as the sleek and durable cabinet design with its appliance-grade paint finish, or the quiet operation that comes from solid construction and other sound-reducing features.

1

Quiet The scroll compressor operates without noisy pistons and comes with a sound blanket to reduce compressor sound levels.

2

Durable The painted, galvanized steel cabinet features a powder-coat, baked-on finish and a coated inlet grille with narrower spacing to provide maximum protection as it allows for proper airflow and easy coil cleaning.

3

Efficient The scroll compressor and the 7 mm copper tubing with aluminum fin coils increase efficiency for greater energy savings.

4

Aerodynamic The aerodynamic air discharge design reduces operating sound, and the two-speed fan motor operates most of the time on the quieter, lower speed.

5

Service Friendly Comfort Alert® diagnostic system and Plug & Play feature simplify wiring and make servicing faster and easier.

It's All About Efficiency

The Tempstar SmartComfort TX 5500 represents one of the smartest choices for efficiency. Its 15 SEER[†]/8.5 HSPF[†] ratings mean you're

rewarded with savings on your utility costs, month after month, especially when compared to an older 10 SEER unit.

[†]SEER stands for Seasonal Energy Efficiency Ratio and HSPF stands for Heating Seasonal Performance Factor.

Percentage based on national averages at 10 SEER; may vary according to efficiency of current unit and installation.

Quality Inside Out

The scroll compressor ranks as the top industry choice for efficiency and reliability. Many more extras—including a two-speed fan motor, a filter drier, a compressor sound jacket, and an innovative grille design—keep the SmartComfort TX 5500 running smoothly and quietly year after year.

Top-Of-The-Line Protection

Tempstar units are backed by exceptional warranties, including our No Hassle Replacement™ limited warranty, which gives the original purchaser a one-time replacement unit if the compressor or outdoor coil should fail due to defect within the first five years. You also get a 10 year parts limited warranty upon timely registration.*

*Limited warranty period is 5 years for parts if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. Please see warranty certificate for further details and restrictions.

Complete Line, Complete Comfort

- a** HUMIDIFIER enhances comfort by reducing dryness in the air.
- b** AIR CLEANER filters out many indoor air pollutants so the air in your home is cleaner.
- c** SET-BACK THERMOSTAT allows you to customize heating and cooling levels and also save energy.
- d** FAN COIL is designed to optimize airflow and improve cooling and heating efficiency.
- e** HEAT PUMP keeps your home cool in the summer and warm in the winter.
- f** EVAPORATOR/ INDOOR COIL, to match your Tempstar heat pump, assures you of optimum performance.
- g** UV LIGHTS help prevent the growth of microbes on the coils.

[†] Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

[♦] For information regarding furnace or fan coil options that can increase the energy efficiency of selected 13 and 14 SEER Tempstar air conditioners (SEER) and heat pumps (SEER and HSPF), go to Tempstar.com and look for “Energy Savings” on the menu.

[▲] Timely registration required for 10 year parts limited warranty. Limited warranty period is 5 years for parts if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. Please see warranty certificate for further details and restrictions.

[‡] 16 SEER rating when when paired with select indoor equipment.

All systems tested and listed by the appropriate agencies.
